A Special Welcome from the 2022 Local Host Committee

On behalf of the Local Host Committee for this year's African Economic History Network Meeting, we want to wish you a warm welcome to Gran Canaria. Our local committee includes Faculty Members from the Universidad de Las Palmas de Gran Canaria and the Universidad Carlos III de Madrid. Together, we have greatly enjoyed the chance to create an exciting scientific programme covering key topics and questions about the economic past of the African continent.

The Canary Islands have been a crossroads between Africa and the rest of the world from the Early Modern Age up to the present. People, goods and ideas from Europe, Africa and America passed through these islands for centuries. This conference thus continues this long tradition by taking the advantage of the Canaries unique location to be a crossover now for academic discussion.

The programme contains two keynotes and over twenty parallel sessions devoted to the most recent studies on African Economic History from different perspectives. In addition to that, the programme also includes a number of cultural activities such as cocktail events and live music in Casa Africa as well as a guided tour through the historical centre with a guided visit of the Museo Canario. Lastly, the Jay-Jay Okocha soccer trophy will be held forming the final key activity of this academic event!

We hope that you will enjoy this conference as well as your time in sunny Gran Canaria!
